Quiz Instructions

Question 1 12 pts

We watched a video about meteorites.

The probability for a 10km large meteorite (like the one that killed the dinosaurs) hit the Earth during our life time is

☐

0%

☐

10%

☐

5%

☐

50%

Question 2 12 pts

We watched a video about meteorites.

Do we have the technology to prevent a meteorite to hit the EArth?

according to the video

☐

nope

☐

yup

☐

I missed the class

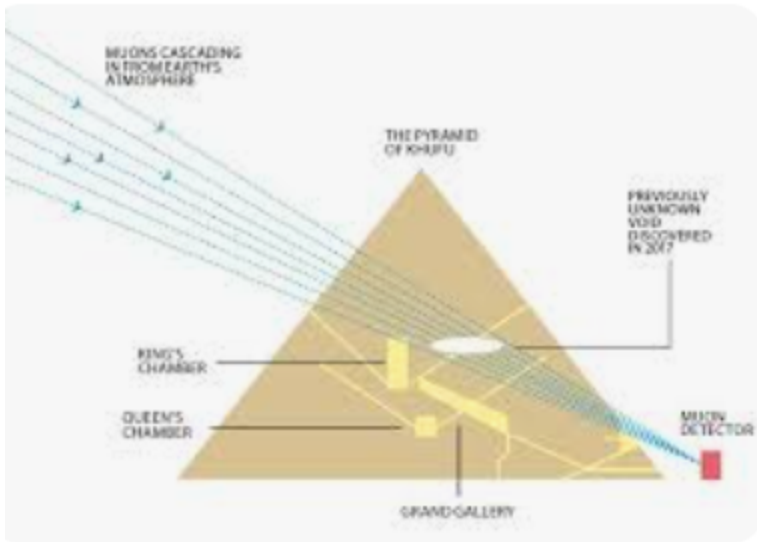

☐

I traveled in space during the class

Question 3 12 pts

I told you about Luiz Alvarez. He used cosmic rays to probe

☐

a pyramid

☐

the crater at the Yucatan peninsula

☐

to probe the meteor crater to detect iron

☐

this is non sense. pseudo science

☒

Question 4 12 pts

Karl Sagan helped NASA designing the message on Pioneer 10 for extra terrestrial life to learn about us.

He used _____ as a way to locate the Earth.

☐

pulsars

☐

black holes

☐

the dwarf planets

☐

asteroids

☒

Question 5 12 pts

The layer that draws the limit between the age of dinosaurs and the age of mammals is made of

☐

iridium

☐

iron

☐

silicon

polonium

Question 6 12 pts

the meteorite that killed the dinosaurs delivered about

100 million megatons of TNT

10 megatons of TNT

15 kilotons of TNT

50 megatons of TNT

Question 7 12 pts

We talked about meteor crater. Also called Barringer crater. This man understood that it was a meteorite that created the huge crater. He dug all over the crater in order to find

iron

iridium

unranium

gold

Question 8 12 pts

<https://earthsky.org/astronomy-essentials/taurid-meteors-all-you-need-to-know/>

[\(https://earthsky.org/astronomy-essentials/taurid-meteors-all-you-need-to-know/\)](https://earthsky.org/astronomy-essentials/taurid-meteors-all-you-need-to-know/)

November 1st 2026 we expect a peak meteor shower

Taurids

perseids

gemenids

leonids

Question 9 12 pts

In class we discussed kinetic energy. Which is proportional to speed squared and proportional to mass. on the highway, If your increase your speed from 30mph to 90mph, the KE increases by a factor

☐

of 9

☐

of 3

☐

of 6

☐

stays constant. mass stays the same
