Mars

☐

Pluto

Question 3 5 pts

Which person below angered the Pope with his assertion that the Earth moved around the Sun?

☐

Galileo

☐

Tycho

☐

Kepler

☐

Copernicus

Question 4 3 pts

Which person below discovered that Jupiter has moons?

☐

Aristotle

☐

Ptolemy

☐

Galileo

☐

Kepler

☐

Tycho Brahe

Question 5 5 pts

Which person below wrote a book, published in 1543 (in his death bed) suggesting that Earth and other planets orbit the Sun?

☐

Galileo

☐

Tycho Brahe

☐

Copernicus

☐

Ptolemy

☐

Kepler

Question 6 3 pts

who was burnt at stake (very unpleasant)

☐

Johannes Kepler

☐

Tycho Brahe

☐

Nicholas Copernicus

☐

Jordano Bruno

**Question 7 5 pts**

Galileo proved the heliocentric system by observing the phases of

☐

Mars

☐

Mercury

☐

Venus

☐

Jupiter

**Question 8 5 pts**

Galileo observed _____ moons of Jupiter

☐

1

☐

4

☐

3

☐

2

**Question 9 5 pts**

Galileo did his experiments on falling bodies using

☐

the tower of Pisa

☐

inclined planes

☐

the duomo in Firenze

☐

I missed the class

**Question 10 5 pts**

We know so much about our Universe because

☐

we analyse the light coming from objects in space

☐

we build models in labs of stars

☐

we go to hardware stores and buy stars

we analyze the sound coming from space

Question 11 5 pts

After his trial, Galileo was

burnt at stake

jailed in the bastille

beheaded

under house arrest

Question 12 5 pts

who was the first to observe the sun spots?

Copernicus

Galileo

Bruno

Giotto

Question 13 6 pts

If the Universe age is scaled down to one year. January 1st is the big bang and december 31st the last day.

The cambrian explosion happened (see my slides unit scales in the Universe)

note: when most of the major animal groups started to appear in the fossil record, a time of rapid expansion of different forms of life on Earth) happened

6 months after January first

1 week after January 1st

1 month after January 1st

11 months after the January 1st

Question 14 6 pts

Following the previous question/ The industrial revolution happens

(Last day of the year is December 31st midnight)

☐

1 week before midnight

☐

6 months before midnight

☐

A few second before midnight

☐

1 day before midnight

Question 15 3 pts

Trycho Brahe hired _____ to work on his big data (motion of Mars)

☐

Johannes Kepler

☐

Nicholas Copernicus

☐

Jordano Bruno

☐

Galileo Galilei

☐

Queen Elizabeth the 1st

Question 16 3 pts

Tycho Brahe was given an island by the king of _____ so he could observe the planets with great accuracy.

☐

Germany

☐

Danmark

☐

Prague

☐

Italy

Question 17 5 pts

If you drop a paper on a book from the same height. At the same time. On the Moon (no air resistance)

☐

The paper arrives first

The book arrives first

They both arrive at the same time

It depends on the book cover

Question 18 5 pts

Galileo wrote his famous book "dialogue concerning the 2 chief world system"

(supporting the heliocentric model)

in latin

in french

in italian

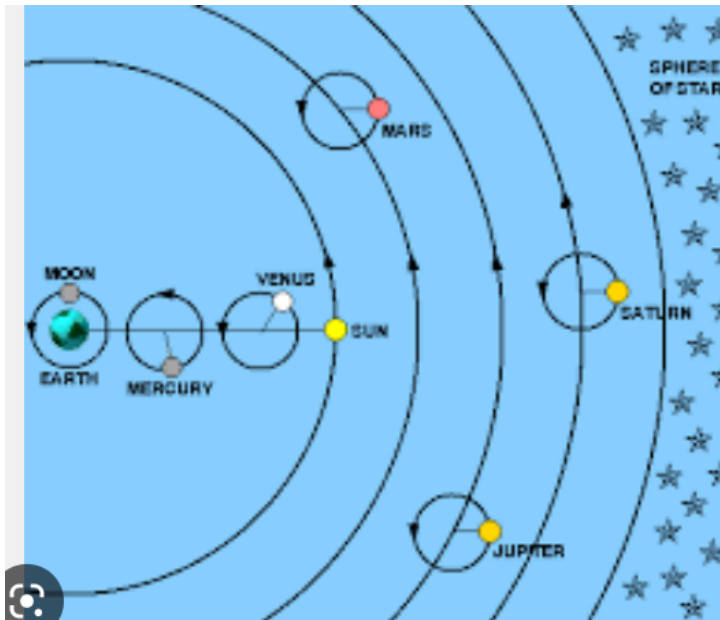

in greek

Question 19 3 pts

Ptolemy improved the geocentric model by introducing circles that planets follow on top of other circles on top of orbits. It got very messy. Those circles are called

tricycles

epicycles

ellipses

unicyles

Question 20 3 pts

From Earth, we see the Sun

as it will be in 5 minutes from now

as it is now. Dah

as it was one 1,3 seconds ago

as it was 8 minutes ago

Question 21 3 pts

How long does it take for a radio signal to travel from the Moon to the EArth

about 1.3s

about 0.1 second

about 8 minutes

its instantaneous

Question 22 3 pts

What can go faster than the speed of light?

(based on disussion in class)

radiation emitted by supermassive black hole

a super powerfull rocket built by Elon Musk

nothing, nothing went faster than the speed of light

expanding space after the big bang

Question 23 3 pts

Referring to the tablet of Venus

☐

this is an example of Hieroglyphics

☐

This is an example of chinese writing

☐

This is an example of cuneiform writing

☐

this is an example of hebrew writing

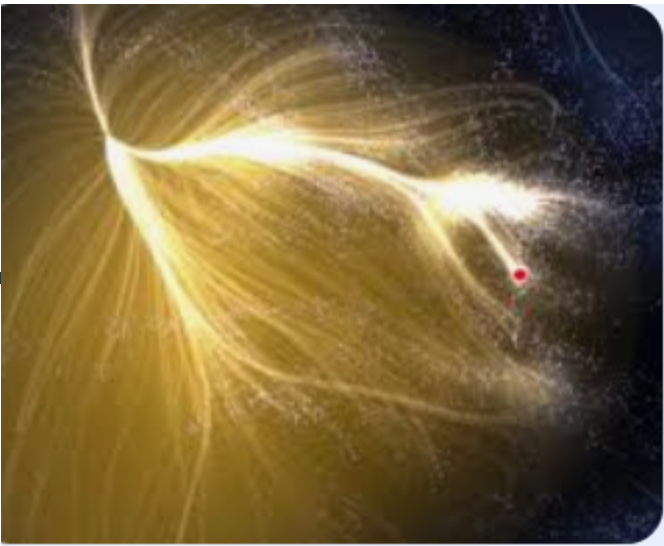

☐

This is the famous message sent by aliens

☒

Question 24 5 pts

This large-scale structure shown in class is called

☐

Laniakea

☐

Virgo Supercluster

☐

local group

☐

Perseus-Pisces Supercluster
